## Work Experience

---

### IRIS Worldwide

Sr. Software Engineer

London/New Delhi, India

Jul 2020 - Till Now

- Led the coordination of Samsung London projects, serving as the primary liaison with overseas teams, ensuring smooth communication and timely project completion.
- Spearheaded the conversion of the code base from Java to Kotlin and implemented an automated build and distribution system, optimizing the development workflow and reducing deployment time by 20%.
- Dramatically improved crash analytics from 60% to 98%, resulting in a near escalation-free Android app experience.
- Currently in the process of uploading Samsung apps to the Google Play Store and managing the Firebase console.
- **Technical Skills:** Android(Java/Kotlin), Python(Web Scrapping), React Native, Ktor, Git(Bit-bucket, GitHub).

### BioCyte India

Project Manager/Developer

New Delhi, India

Aug 2018 - Jul 2020

- Provided technical leadership for the Map My Health application, guiding a cross-platform team of 5 developers from inception to market launch.
- Established a clear data flow architecture for the app and website, ensuring data integrity and efficient operations.
- Collaborated with doctors and stakeholders to gather requirements and identify opportunities for app improvements, leading to a 15% increase in user satisfaction.
- **Technical Skills:** Android(Java/Kotlin), Flutter, Git(Bit-bucket, GitHub).

### Ushyaku Software Solutions

Android Developer

Gurugram, India

April 2017 - Jul 2018

- Collaborated with an overseas team to deliver app features and resolve critical issues, ensuring seamless project execution and on-time delivery.
- Implemented build automation to expedite build delivery to the overseas team, improving collaboration efficiency by 25%
- Optimized layout and information hierarchy for enhanced user experience on large-screen devices, resulting in a 10% increase in user engagement.
- **Technical Skills:** Android(Java), Git.

### Mobilyte India Pvt Ltd

Software Engineer 1

Punjab, India

Jan 2015 - Mar 2017

- Transitioned into an Android developer role, gaining expertise through active learning from senior developers.
- Received the first full-time offer from my internship batch in recognition of strong performance and rapid skill development.
- **Technical Skills:** Android(Java), Ubuntu Linux, Git.
